

Finally . . . Professional Images of Your Golfing Event!

Are you frustrated that your photos don't turn out? Are you tired of running around chasing everyone down only to be met by golfers refusing to have their picture taken? Worry no more. Chris Touhey and his staff at Sand Creek Station Golf Course contacted local professional photographer, Mark Reimer of Visual Memories to photograph your tournament or event and provide excellent quality photos by the end of play. That's right! Before your event ends, Mark will deliver a 5x7 of each player back to the course so your guests have a gift to take home.

Visual Memories? Who are they? Visual Memories is the studio that Mark Reimer owns and operates in Newton, KS. They are a full-service studio specializing in family, baby, and some commercial photography, having been in business now almost 8 years. By the way, Mark is the photographer that created the beautiful "painting" like portraits of the golf course in the clubhouse. If you haven't seen them yet, please stop by and do so. The images on the website do not compare to seeing them in person.

What will it cost to have a professional photographer come to my event? Not as much as you might think. For only \$5 per player, Mark will drive around and photograph each team (see images to the right) on the golf course during play. Remember, for \$5, each player will receive a beautiful 5x7 in a nice framed easel to take home. Since Mark does play golf himself, he knows the rules and etiquette of the game and won't disturb them during play.

What if I'm interested in other photography? You may contact Mark at the studio. The phone number is 316 282-0600 or you may visit his website, www.visualmemoriesinc.com.

How do I get Mark to photograph my event? Contact Chris (316 284-6161) and let him know that you want photos of each team and he'll take care of the rest. No more worries.
